

Project name :

Additional Courses

English, Mathematic, Physique, Computer Services

Open date: January 2017

Start Planed: January 2017

Finish Date actual: jully 2017

Description (Why)

Additional Courses: English, Mathematic, Physique, Computer services.

When we consider the importances of these courses it is very important to give the children more cleaver those additional courses at MDO. When the children leaving the school if they are strong or smart in these disciplined they find easily a jod so fast. They are the keys courses in the life of children finishing their grade at school.

There is other schools in area of Gros-Morne who give the additional as well for the performance of pipils at the afficial exam Mont des Oliviers school would be to integrate in the system project as well for the children who frequent the school. Hope the Project can accept from you. Infact the additional courses project will ask to have the additional lap top and other equipement.

Total Cost estimate

We estimate to Start this project with an amount of \$ 2000 us. Step by Step via the progress of project we can continue to finance it.

Total cost actual

The actual Cost in the same amount \$ 2000 us for starting the project for the yourth children at Mont des Oliviers School in de Gros-Morne area.
